

Applicants : Philip A. March et al.
Serial No. : 10/032,401
Page : 2

In the Specification:

Please amend the paragraph at page 16, lines 8-13 of the specification to read as follows:

Cl
--Alternately, sleeve 12 may include one or more brass, metallic, or other electrically conductive electrical bus bars 59 which, preferably, are insert molded within the sleeve to extend from one end to the other either internally or externally (Fig. 4). Such bus bars preferably would have a surface 59a exposed at each end of sleeve 12 for connection to another component of the rearview mirror assembly, or to an electrical connector and wire/conductor to provide electricity through the sleeve.--
